Branching[Mandatory]

Each application hosted on VCS must have at minimum three protected branches: **development**, **test** and **production**. Direct commits to protected branches is prohibited. Only reviewed and approved merge/pull requests shall be allowed to land on protected branches.

Revision #3
Created 26 September 2025 12:14:06 by RISA
Updated 29 September 2025 08:49:54 by RISA
